Maple Neighbourhood Collective

Neighbourhood Repair Café - planning meeting record

Document: MNC-RC-2026-11-MIN-02

Revision: 2.0 - approved for internal planning

Meeting: 30 October 2026, 18:00-18:40 GMT

Prepared: Rowan Vale, 31 October 2026

Attendees: Rowan Vale (volunteers), Ellis Reed (communications), Mina Cole (venue), Tess Brook (equipment liaison)

Scope: arrangements for the November event; no invitations have been sent by this meeting record.

All people, places and events are fictional AMBI-Bench fixtures.

1. Event details agreed

The Neighbourhood Repair Café will take place on **14 November 2026, 10:00-13:00**, at **Maple Community Hall, 12 Example Lane**. Use the main hall on the ground floor. The upstairs room was considered earlier but will not be used.

Entry is **free** and **no booking** is required. Attendees may bring one small household item for volunteers to assess. Repairs are not guaranteed, and the team may decline items it cannot safely work on. The public-facing invitation should avoid promising that every item will be repaired.

Volunteers may enter at 09:00 to arrange tables. Public access begins at 10:00. Pack-down is scheduled for 13:00-13:30; neither setup nor pack-down extends the advertised public opening hours.

2. Decisions recorded

Ref	Decision	Reason / qualification
D-01	Reserve the main hall, not the upstairs room.	Ground-floor access and room for a reception table.
D-02	Keep entry free and do not require booking.	Reduce barriers to attending; manage any queue on arrival.
D-03	Offer tea and biscuits.	Served at the refreshments table; record allergy information when selecting supplies.
D-04	Use a one-item-per-attendee guideline.	Keep the initial queue manageable; volunteers can reassess capacity during the event.
D-05	Replace the earlier date and admission-price draft.	The 27 October draft is retained only as an archive, not an invitation to reuse.

3. Actions and owners

Ref	Owner	Action	Due	State
A-01	Rowan Vale	Confirm the volunteer rota, including setup and reception coverage.	5 November 2026	Open; replies still outstanding.

Ref	Owner	Action	Due	State
A-02	Ellis Reed	Prepare the invitation using the agreed date, venue, public hours and entry terms.	6 November 2026	Draft pending; do not send before the wording is checked.

Rowan should record the volunteers who actually confirm; a suggested name on the draft rota is not a commitment. Ellis should use the current meeting record and the venue confirmation rather than the archived flyer wording. Both owners will flag blockers in the shared planning notes.

4. Open questions and dependencies

The available **number of repair stations is unconfirmed**. Equipment availability and the final volunteer mix determine capacity. A tentative sketch in an earlier working note showed four stations, but this was a planning assumption, not a confirmed allocation. Do not present four, or any other number, as confirmed in the brief.

The team has not decided whether there will be a separate electrical-items queue. This should be settled after volunteer skills are confirmed. No new owner or deadline was assigned for that decision at this meeting.

5. Communications and source precedence

This record supersedes old-draft.md (revision 0.3, 27 October). The old draft used 15 November and a £5 admission price. Those values were explicitly withdrawn. The venue confirmation dated 31 October agrees with the current public hours and ground-floor room.

The short brief should communicate current arrangements and unresolved questions. It need not reproduce the withdrawn draft values. Distinguish agreed decisions, open actions and assumptions. The hall booking receipt confirms a financial transaction only; it does not establish the repair-station count.

6. Distribution and next review

Internal recipients: volunteer coordination and communications. Next review: after the rota replies arrive. This document is a planning record, not an authorization to send mail, book services or alter source files.

Record approved: Rowan Vale / Ellis Reed, 31 October 2026.

Fixture notice: fictional test document; no signatures, bank details or real personal records.
